Subject: Original Honolulu NOI

http://www.fta.dot.gov/legal/federal_register/2004/16290_17935_ENG_HTML.htm

Here is the link to the NOI that was actually published in the FR. Based on this morning's discussion, it should have been an early scoping notice, not an NOI. I think that this error doesn't matter as long as we publish a new NOI at the end of the AA that sets the record straight and starts the scoping process for determining the scope of the EIS.
