Dear Lawrence:

Wednesday the 17th is possible, although if we could meet beginning at noon or 12:30 that might be better. How long do you anticipate the meeting will last? Could you also remind me where do find you?
I do think that it would be helpful to include HHF in the conversation, given the massive nature of the consultation. Would you mind extending the invitation to Kiersten Faulkner (Kiersten@historichawaii.org and Katie Kastner (Katie@historichawaii.org)? It is too bad that many of other national preservation partners do not have local offices. Hopefully, either Pua or Nancy will come as well if they availability in their schedules.

Thanks so much again for the invitation.
Best regards,
Astrid

Subject RE: Transit Project

Aloha Astrid,

May we take 12/17 from 1:00 to the end of your day? Yes, this is intended to be limited to architectural resources. We have separately been meeting with archaeology staff.

We will put together an agenda prior to the meeting, but we intend is to bring design and planning staff able to discuss effects to each eligible resources within the APE. Our hope is that we can come to a general understanding of SHPD's expectations on effect determinations and work through any design commitments that would be needed to support the determinations. We will be prepared to explain the thought process and assumptions used for the proposed effects determinations that were listed in the Draft EIS. From the meeting, we will prepare an effects memorandum and supporting information for submittal for SHPD's review and hopeful concurrence.

Because we view this step as a Section 106 inter-agency coordination, we have not invited any other parties. If the SHPD desires to include third-parties at their request, we would not object.

Subject: Re: Transit Project

Dear Lawrence:

Thank you for your call. I would be happy to do a workshop with you regarding expectations and project understanding for the determination of eligibility. Initially I had passed your email on to our administrative team to see if they would also be interested in participating. Based on your message, however, it seems that this particular workshop would focus on the architectural resources (correct me otherwise).
As for scheduling the week of the 15th, it is a little tricky I must say, but I might suggest that I do have to be in town for another meeting from 9 to 10 on Friday the 19th, so I would be free after that. If that doesn't work, we can talk other dates. For instance, the 17th I have a meeting here from 10-11 but would be free after that. Thank you so much for the offer. Will other consulting parties, such as Historic Hawai'i Foundation, be participating?

Best regards,
Astrid

Subject Transit Project

Aloha Astrid,

As you have probably seen, or Draft EIS is being released this month. We have included the SHPD correspondence to date. Your office should receive the EIS next week. Thank you for your time and effort to date on the project.

I would like to make our process for proposing Determination of Effect and mitigation as streamlined as possible. I was wondering what you would think of having a workshop, either 1/2 or full day where we could bring in our preservation people and

design engineers and architects and meet with you and any of your staff to work through expectations and project understanding.

I was looking at the week of December 15 (any day) as a good time for us based on our overall project schedule. We should also be able to share any comments that we had received on historic resources from the public hearings. We would then take the notes from the workshop and prepare the determination of effects report and draft a MoA. We're happy either to come see you, or host you at our offices.

Let me know if you think this might work, and how we could fit into your schedule.

Lawrence
