Faith,

Attached are comments on pages 1-75. There are a handful of comments within these pages that I will request an additional look by legal and may request extra written clarification for comments stating that their comments on the DEIS were not responded to as well as they would have liked in the FEIS. I need to go back and look at the FEIS appendix with response letters.

I should have the rest incorporated into the table matrix hopefully tomorrow.

Thanks!

Liz
