I cannot find my copy of the Kiewet letter. I believe it was sent to you in the below e-mail.

Subject: Honolulu Rail Project

Hi Liz and Ted –

Thanks for informing us of the extension to the FEIS comment period. Liz, I forgot to ask you during our conversation today whether we need to notice this extension locally. Please let me know if we need to place a newspaper ad or if we can just notice it on the website.

Also, last Friday I got the attached letter from SSFM, a consultant to the West Oahu Farrington Highway Contractor. It was pre-assessment consultation letter for the casting yard that the contractor is proposing for our project. I am sending this for your information because it was sent to some of our cooperating agencies (FAA and HDOT) and so you may be contacted regarding this.
