Hi John –

As discussed, attached is a copy of the draft programmatic agreement that was distributed at the July 28th meeting with the Section 106 consulting parties. Please see where we deleted all stipulations that relate to the Navy. We related that this was done at the request of the Navy. If that is not your position, we need to know.

We hope that you can participate in the August 4th meeting. The following email message will be sent to all those who participated in this week's meeting:

Dear HHCTCP Consulting Parties:

Thank you for attending the meeting on July 28, 2009. We appreciate your input as we develop the Programmatic Agreement. We are working this week to review, consider, and investigate all of your comments and believe that keeping our planned meeting time for August 4, 2009, would prove helpful as we revise the PA. We will look forward to seeing you at the Laniakea YWCA at 9am, as indicated on your initial invitation. We will have an improved phone system for those who will have to call in to the meeting. The call-in number will remain 1-888-742-8686, Confirmation ID 3784294.

We would also like to invite you to a third meeting in this series, to be held on Tuesday, August 11 from 10am-11am at the PB Americas Office, 1001 Bishop Street, Suite 2400. Please note the change in location and time. Again, the call-in number will remain the same as that given above.

We look forward to seeing you there.

Let me know if you need anything else.

Faith Miyamoto
