Subject: Distribution to Cooperating Agencies

Good morning Faith,

We will let you know this afternoon whether we are ready to distribute the document to cooperating agencies. We are working on making final changes some internal documentation that we would like to complete before sending files to cooperating agencies.

Prior to sending out the document, we would like to review the transmittal letter for the cooperating agencies. We would like the transmittal note to indicate what is missing from the document (the ALP) and let the cooperating agencies know about the short review time. It may be helpful to indicate what has changed since they last reviewed the document. My understanding is that they had an opportunity to look at an administrative draft last summer/early fall?

Please let us know if you have questions,

Liz
