Hi Veronica,

Here are the FTA comments:

- With regard to scoping, it should state that FTA requires scoping at the conclusion of the AA and the start of the NEPA process. FTA has not yet concluded whether a new NOI will be required.

- With regard to the EJ methodology, 1) DTS shall coordinate with the EPA on the EJ methodology and 2) Develop a Community Impact Assessment for complying with environment justice. Information on this subject can be found on the FHWA website at:
  http://www.fhwa.dot.gov/environment/comm2.htm.

Thank you,

Ray
