I've put a couple questions into the text. Jim, if you've heard back from everyone in TPE and TRO-9 and addressed their questions and concerns, would you please have the memo put into final? Susan

Attached for your review is an initial draft of a memo to the administrator seeking guidance on the New Starts funding assumptions in the financial plan we got from the City in May. As it stands, the memo effectively says that this is the only significant issue that remains with respect to the PE request, hoping to make the point that we really need a decision. We could add lots of other things, like options, a recommendation, a NEPA progress report, waiver requests, and other items. But to keep the focus clearly on the funding assumptions, we need to be judicious on expansion to include other topics.

The attachments are (1) an Adobe file that has both the memo and the Excel table and (2) a Word file with just the memo.

Thanks.
