Wade,

Mark Scheibe from PB will be calling you regarding your issue. He'll guide you to the right people. Mark is Deputy PM for this project.

Subject: FTA Preservation of Forecasts

Dear Mr. Hamayasu:

I am writing because I've been tasked with running (and eventually archiving) some MINUTP model runs provided by your agency for FTA's Preservation of Forecasts requirement. I have a few mechanical questions regarding executing the model runs and I was wondering who the best person to contact would be regarding some detailed questions I have on the appropriate way to execute the MINUTP model data sets provided to FTA?

Regards,
Wade L. White, AICP
President
