Subject: Honolulu Transit Section 106 and Navy lands

Blythe, Jim and Pua:
In reviewing the outstanding issues related to the Honolulu Rapid Transit project and Section 106, I have a note that says Navy may be subject to its own Section 106 requirements for this project. I believe the question was whether or not the corridor transects federal land and if Navy is conveying a right of access.

Has anyone checked the title for the right of way that transects Pearl Harbor and the mauka lands (CINCPAC, Little Makalapa, etc.)? Has the issue of a Navy undertaking been checked and resolved? Can someone document the outcome for me, please?

Thank you,
Kiersten Faulkner
