Welcome to the secretive and exclusive club of making expensive decisions.

I asked Faith to look into the population issue by turning on the consultant's planners. But I am always available to talk to you. I am back in the building.

FYI. I still need to talk to you about the revised 2035 population projections.

RE: Selection Committee

Determination Request

Aaron,

The committee the City wishes me to serve on will be to review, evaluate and select a consultant for an engineering professional services contract (s). It will follow a RFQ format. I hope this information is helpful in your deliberations on my request. Please let me know if you require any further information.

Aaron,

I forgot to mention if you could keep this matter confidential (until the procurement process is completed) in the event I am asked to serve on the committee pending your favorable response.

Subject: Selection Committee Determination Request

Aaron,

I am requesting your determination as to whether state procurement laws allow me to serve on a consultant selection committee for the City and County of Honolulu.

The Rapid Transit Division of the Honolulu Department of Transportation Services (DTS) will be issuing several contracts relating to the rail project on behalf of the City and County of Honolulu. Because the OahuMPO is a city-state agency and is perceived as a "neutral" body with respect to resolving city-state transportation planning issues, I have be asked to serve on the selection committee on two contracts related to the rail project.

I am appointed by the OahuMPO Policy Committee which consists of six members of the state legislature, five members of the Honolulu City Council, the DTS Director, and the Hawaii Department of Transportation Director.

Please let me know if you require any additional information. Your timely response will be greatly appreciated.
