Attachments: FEIS 4(f) Chapter FTA response.doc; FEIS Chapter 4 FTA response.doc

Ray:
Chris says that he deleted the Lagoon Park item from his later comments – and I see from the attachment that this is the case.
In any case, Chris said that we can't decide the park until we decide the airport.
If they have a good airport avoidance alternative, then we may have a good 4(f) avoidance alternative.
Jim

Subject: FTA response to response to comments

Hi Faith,

Attached are FTA responses to your response to our comments sent at the end of October/early November.

They address Chapter 4 and the 4(f) Chapter. We had previously discussed Chapter 2 and I believe that is resolved.

The only issue not addressed is the Ke'ehi Lagoon Park. We are finalizing our position on that and will communicate that to you soon. We will also be providing you soon with comments on some of your proposed public comment response letters.

We have no other comments at this time.

At this time, please use this material as guidance in the development of a revised draft FEIS which you can submit to us. That document should also include material as necessary to address the airport issue as was outlined in other FTA correspondence. We are looking to tie everything up in one more submission of a complete FEIS draft that will under go our final review.

Please contact me if you have any questions.

Ted
