Attachments: CPP Cost Summary Airport Modifications 021109 v2r.xls

Hi Justine:

I hope to get the answer on cost effectiveness in a few minutes. Otherwise it will be tomorrow.

The most recent breakdown of project costs by contract package that I have is attached. Please note the cost is in Q42007\$ and reflects 67 vehicles. This information is only for the construction/procurement contracts and does not include soft costs, right-of-way or project reserve. Does this help or do you want me to have it conformed to year of expenditure \$ and correct the fleet size? Please consider this information highly confidential.

Simon

Good Morning Simon,

Please confirm the project cost effectiveness is still \$17.78.

Also, FTA is asking for the estimated cost of the first segment and whether the City has a break down of the Project Cost by contract package.

Please call me at 704-543-0975 or 786-586-0026 if you have any questions.

Justine A. Belizaire-Gouveia
