Hi Faith –

I was indeed in SF on Monday – and remember passing a (new?) federal building on 7th St. near Market St. I wonder if that's where you folks were. Anyway, I was on vacation (June 20 through yesterday) – much of it in the backcountry of Yosemite and Sequoia National Parks (no phones, faxes, cellphones, or Internet access). I'm now back in the office and will be catching up on what happened in the last 2.5 weeks in and about Honolulu.

Jim

Subject: Honolulu Meeting with FTA Region IX on 7/6/09

Hi Jim –

Honolulu DTS Rapid Transit Division and PB staff will be meeting with FTA Region IX on Monday, July 6, 2009 from 8:30 a.m. at their office. Rumor has it that you will be in San Francisco on that day. We are hoping that you will be able to join us at this meeting. Jim Barr will be phoning in to participate.

I am currently developing the agenda for the half-day meeting. We would like to present an update of our coordination with the U.S. Army COE on wetlands and waters of the U.S. and with the State Historic Preservation Division on the historic effects of the project. In addition, we would like to discuss how we have revised the EIS to address comments received on the draft. Region IX staff has raised concerns regarding the financial plan for the project. We thought that you may be able to assist us in addressing those concerns.

Please let me know if you will be able to join us on July 6th. Thanks.
