Subject: Honolulu Rail Project

Hi Liz and Ted -

Today, Thursday, June 10, 2010, CD copies (2 sets to Liz and 3 sets to Ted) of the Final Environmental Impact Statement (EIS) will be delivered to you. This version of the Final EIS incorporates FTA's most recent comments and suggestions. In consultation with environmental experts and counsel, the document has been compiled in good faith and sets forth sufficient information to enable the decision-maker to consider fully the environmental factors involved and to make a reasoned decision after balancing the risks of harm to the environment against the benefits to be derived from the proposed action, as well as to make a reasoned choice between alternatives. As requested by FTA, this Final EIS has been reviewed to the best of our ability to ensure consistency among its various components.

Each set consists of two CDs: one includes the primary text of the Final EIS and the second includes all of the appendices. The primary text of the document is also available at the following FTP site:

https://ftp.pbworld.com/GetFile.aspx?fn=addd7213-ffd9-4b86-b789-5e43bf8ca799

You may not be able to access the site by just clicking on the link. You may have to type in the entire address.

The appendices are not available at this site. They will only be on the CDs that are delivered to you.

Please let me know when you receive the CDs. Thanks.

Faith
