Subject: Honolulu- Response to Comments on 106

We should correct several problems with the City's response to 106 comments from the NTHP, the AIA, and HHF, and include the revised responses in our administrative record. For example, the adverse effect determinations are FTA's responsibility, not the SHPO's. I have marked up the responses in the attached.

They were sent in Excel format, so "track changes" was not an option.
