Faith,

On Monday February 8, I received a response from David Siegenthaler saying that he has met with their attorney on the easement for the transit corridor project and that based on that meeting, he has made some edits to the draft easement and has submitted the draft back to the attorney for review. David says that he hopes to have that document back to me with their recommended changes very soon.

Russ

Subject Aloha Stadium - National Park Service Determination for Honolulu Rail Project

Hi Russ –

It has been a while since you sent the National Park Service (David Siegenthaler) the draft easement document that would allow the transit project structures on Aloha Stadium property. Have you received a response from NPS regarding its determination that the transit project structures would be in keeping with the recreational use of the property?

Thanks for all your help.
