Subject: Fw: FINAL IMPACT STATEMENT...

I am pushing hard and using every trick I know, Susan, but I am not making any friends in the process...

That's great, Nancy-Ellen; we'll squeeze all the review and other necessary time out of the process as we can for you. Thanks. Carl

Carl:
I believe we can meet the current schedule that was discussed yesterday. I don't believe one week is long enough to review the complete FEIS. There is nothing to raise with the Administrator at this time.

Nancy-Ellen –

Liz is going to get in touch with Faith and communicate your needs for preparing the final impact statement for distribution to the cooperating agencies. If you and Renee believe that your review and the finalization of the document cannot be accomplished within the schedule, then I urge you to communicate that to the Administrator; that's your call and nobody else's. I have to report to the Administrator about the schedule and any possible slippage. I reported to the Administrator last night that we were on schedule; I believed that to be the case. If you believe the schedule cannot be met, that should be communicated to the Administrator at the earliest opportunity. Carl
