Subject: RE: Second Draft

Darrell,

My suggestions:

1. Combine Slides 5 & 6 to:

   Not enough Highway Funds to build a new major highway
   - Federal funding used to pay for H-1, H-2 and H-3 is no longer available.
   - About $90 million per year in federal highway funds expected for Oahu in the next four years.
     - About $19 million are programmed for the City.
     - All these funds are already programmed for needed roadway projects such as North South Road, Ala Moana Boulevard, Nimitz Highway
   - Revenues for the Federal Highway Trust Fund are expected to fall short of planned federal spending in 2009.

2. Slide 8: Spelling error on first bullet "Sseveral".
3. Slides 7-13: These slides could be condensed. You may not need to go over most of the FTA and Buy America requirements, just those that may preclude some of the technology candidates from being chosen.
4. Replace Slide 19 with:

   Oahu Metropolitan Planning Org.

   - To be eligible for federal funding, all major projects must be consistent with the Oahu Regional Transportation Plan (ORTP).
   - To be eligible for New Starts funding, the Locally Preferred Alternative must be adopted as part of the ORTP.

Gordon

Subject: Second Draft
Importance: High

Aloha all,

Thanks for all the suggestions. I've made the changes you've offered.

Please review and comment. I still feel as those we need to go over the very basic concepts initially as my primary target are those councilmembers seeking to change to rubber tire on concrete. My secondary target is the media and general public to create doubt over some individual councilmember's ability to select.

With that in mind, please let me know which slides can or should be deleted.

Mahalo,
Darrell
