Hi Faith –

Thank you for the update. Please send the letter from the SHPD when you receive it. I will let other folks within FTA know the status.

Liz

Subject: Honolulu Rail Project - Ualena Historic Resources

Hi Liz –

FYI, Lorraine Minatoishi, the SHPD historian, called me around noon today. She related that she is unable to make a determination regarding the eligibility/effect of the Ualena historic resources because of insufficient information. She has drafted a letter that describes what she needs and will be asking the Deputy SHPO to send me an advance copy. She said that we can't just say that because a building is "ugly" it is not eligible. Frankly, I do not know what more she wants because I thought we did address the eligibility criteria. Lorraine also wanted to know who prepared the eligibility forms and what that person's qualifications were.

I will be working with her to get her what she needs.
