All,
Per my discussion with Lawrence Spurgeon/Parsons Brinckerhoff today, enclosure is a photo of the noise monitoring equipment that will be installed at several locations in the Makalapa/Little Makalapa housing area. We will do a site survey Wed PM to identify [with photos] of preferred noise monitoring location sites which I will forward for your review/approval.

Mahalo, VernS.

LT, Andrew & Jared,
Forwarding below....

Lawrence,
Thank you for your email. As you already alluded to, we need to give adequate notice to Base Security, Navy Housing, Navy Housing Contractor and Makalapa housing residents/tenants. Feedback from our Navy Team will guide us on how soon you can conduct your Noise Survey.

The first two items are: 1) Does your Team presently have card access to enter our Navy base?! 2) Do you have an annotated map showing your proposed noise monitoring locations?! Please let me know, and we will work from there....

Mahalo,
VernS.

Outlying Team,

FYI. Could you notify NAVSTA Security?

Please contact and coordinate with Lawrence of PB.

Thank you!
Lynn

Aloha Lynn,

We have received your comments on the Draft EIS. While the City will be responding officially to the comments, your timing is perfect regarding additional noise analysis being completed to support the Final EIS. We will be conducting additional noise field work in the next two weeks. I am interested in taking measurements in the Makalapa and Little Makalapa housing areas and in the housing around South Drive.

Our measurements would include both taking short-term daytime readings (two people with a noise meter on a tripod) and leaving a locked secure case (size of a shoebox) with a microphone coming out of it overnight. We recognize that both of these activities could generate security concerns; therefore, I would like to make sure that we have any permissions, notifications, and clearances that would be needed to conduct the measurements.

I can schedule specific days and times of day for our work any time between now and February 20th. I am happy to call you or any other individual that is more appropriate, or you may call me at the number below.
