Subject: FW: Revised PMP and Comment Form
Attachments: PMP DocumentRev30MergedWorkingDraft.pdf; PMPCommentForm.pdf; Review Comment Form.doc

Hi Justine:

I've been waiting for 1) the last couple of response sentences on your configuration management comments, 2) a resume from the new DTS Director to come in and 3) some minor corrections to the legal citations, but since the PMP is 99.9% complete, I've decided not to wait any longer. This version of the PMP addresses all of your comments as well as those of other reviewers.

We filled out a comment form with all of your comments and our responses so you can track how your comments were handled. We did not fill out the comment form for the input from all of the other reviewers (PB, etc.) so the attached form does not reflect all comments received nor all changes made to the document. For the past month or so, we have been trying to become much more rigorous in tracking comments on documents such as this, and so if possible, we request that you and other reviewers use the blank form provided so that we can be sure that all comments are addressed.

It may take another two or three days for me to get those last three items cited above, but I will send another version of the document when I have it all done. All of the other documents (QP, SSMP, RAMP and FMP) necessary for the PMO January meeting seem to be on track and we will be sending them out over the holidays as well.

Regards,

Simon
