Hi Ron –

I am following up on the message below regarding the Cambridge Systematics review of our draft land use templates. You may not have received it and so I am resending it. We are interested in finding out if there are areas that we need to do further work on. Thanks.

Subject: Honolulu High-Capacity Transit Corridor Project

Hi Ron –

Earlier this year, I was contacted by Chris Porter of Cambridge Systematics. He related that he would be doing the transit-supportive land use assessment for our New Starts submission. We subsequently sent him the land use templates that we had prepared. At that time, he said that he had an August 27th deadline for submission of his review comments to FTA.

We have not heard anything since we sent him all of the documentation that he requested. Are you able to share the results of his review? We would like to get to work on any problem areas that he identified. Thanks.
