Subject: RE: Travel Forecasts and definition of alternatives documentation

Thanks, Ron, for checking with Jim. I spoke with Mark Scheibe and it was also his understanding that some information was sent to Jim or to his new assistant. Mark will check who sent what to whom if any. We'll get to the bottom of this. Meanwhile, another set of what we think we sent will be sent to you as requested.

Subject: Travel Forecasts and definition of alternatives documentation

Toru,
Jim does not have the forecasts, and has received nothing since the June meeting here that discussed them. We have received some information on forecasts that was used in our travel forecasting workshop recently that is unrelated to your project. Jim also has no recollection of receiving a definition of alternatives report, which contains the service plans – please send that report to me as that will eliminate any confusion.

Thanks,
Ron
