Thanks for your prompt response Toru. I mentioned to the Mayor when he was here on Wednesday that we are working together towards getting "project ready" for your imminent PE entry request early next year, so keep up the good work. Have a nice weekend, and we'll have to meet maybe in November here in SF for a status update with our PMOC.

Thank you, Ed. I have been in communication with Justine and she had also requested to provide the updated documents. I am preparing to send her the 2nd draft PMP tomorrow. The master schedule is still jointly being developed by PB and us. BFMP is not ready. We are discussing various project delivery methods and we should be able to elaborate on the subject at the next PMO meeting in October.

Toru

Subject: FW: July Honolulu PMOC Monitoring Report

Dear Mr. Hamayasu:

Attached for your information is the above referenced Honolulu Report from Booz Allen Hamilton, our Project Management Oversight Contractor (PMOC). To help the project move forward into the Preliminary Engineering phase of the FTA Section 5309 New Starts Program, please continue to work and share information with the FTA and our PMOC. In addition, you should provide updated versions of the Project Management Plan, the Bus Fleet Management Plan, and the schedule from the plans received in June 2007 to the PMOC for its review at your earliest convenience. To follow up with the meeting held in our San Francisco office on July 25, 2007, please continue to work and discuss with the PMOC and the FTA on the best contracting strategies for planning and executing all the project phases successfully. If you have any questions or comments, please call Nadeem Tahir, our Director in the Office of Program Management & Oversight, at (415) 744-3113, or Cathy Luu, our program manager assigned to this project, at (415) 744-2730 or E-Mail Cathy at catherine.luu@dot.gov.

Sincerely,

AR00147384

Edward Carranza, Jr.
Deputy Regional Administrator, Region IX
