Hi Dina –

Hope my responses that I added to your message make sense. Let me know if you have any other questions.

Faith:
Thanks very much, and thanks for your visit the other day - what a nice break it was for us. Couple of questions:

1. You mentioned that the difference between the printed copies and the electronic files for the plan and profile drawings is the stationing. Are you referring to the Drawing No. in the lower right corner? No, I am referring to the numbers that appear above the title block, like 570+00, 600+00, etc.
2. You mentioned in our DPP/DTS meeting that you folks have prototype sketches of station types. Is this the same as the plan and profile drawings, or something different? Something different. I sent the drawings as an attachment to another e-mail. Let me know if you did not get this one.

Thanks,
Dina

Hi Dina –

Apologies for the delay in responding to your request at the last TOD meeting. I have two printed copies (one for you and one for Ray Young) of the Plan and Profile Drawings and ROW needs Tech memo, specific to the First Project. I will get these to you ASAP.

Transmitting the plan and profiles and ROW needs for the two Waipahu Stations (Leoku and Mokuola) in electronic format. You will notice that the electronic file for the plan and profiles is not the same as the printed copy. The only revision is to the stationing.

Please let me know if you need any other information.
