Subject: break-even point for rail?

Aloha Toru,

After speaking with the Lieutenant Governor, he had one more question. What is the break-even point for the fixed guideway system. In other words, how much money will the rail have to make daily (or monthly or annually) to cover daily (or monthly or annually) operating costs? As such, what would be your best guess for a fare for the fixed guideway? Toru, you were a great help last time, thank you. I would greatly appreciate it if you could help out again.

Leon Davenport, III
