Subject: RE: Honolulu High-Capacity Transit Corridor Project

Faith, good evening. As per our previous discussion I was wondering if it might be possible for an associate and I to have someone show us the proposed project route and/or locally preferred alternative? We're happy to do the driving if necessary. Of course we're primarily interested in looking at all the streams/waterways where the rail is likely to cross. I could do it any weekday during the next two weeks. Thanks and I look forward to hearing from you.

Regards,
Doug

Hi Lieutenant Jannusch -

Attached are the documents that we talked about.

Let me know if you need anything else.
