Subject: PE for Airport

Brennon,

I wanted to clarify what we discussed in your office vs. what I said at the OMPO meeting about the need to reapply for PE if the alignment changes from Salt Lake to Airport. You told me FTA said the PE application need not be revisited if the alignment switches. I disagreed. I spoke to FTA about that after our meeting. FTA told me I may be technically correct but they don't have to be so frigid about it. They could consider it as an adjustment since we'll be doing the EIS on both alignments anyway. So, we may owe them a justification report for the change but we are not likely to be required to resubmit the PE application if we switch.

Toru
