Subject: Comments on the benefits-side estimates for the managed lane alternative
Attachments: AAMLcomments5.pdf

Mark:

Earlier today, Bill conveyed the request for specifics on the added agenda item outlining the planned response to non-capital-cost comments on the managed lane alternative. Attached is a compilation of those comments, particularly the sections entitled:

- * Excessive operating cost;
- * Insufficient ridership projected for MLA;
- * Killing the MLA advantage;
- * Insufficient ingress/egress options provided for the MLA;
- * MLA should never be at LOS D; and
- * PB has under-engineered the MLA.

Please let me know if there are any other questions about this additional agenda item.

Jim
