Attachments: Honolulu High Capacity Transit Corridor Project1.doc

Hi Teney,

A small but significant revision to the text. The Council will select the preferred route and alternative based on the results of the analysis. I'm meeting with PB this morning and may have more information on what is presented to the Council. We were discussing this with Toru just yesterday. Also I saw Dan last night and advised him we can bring laptop and PowerPoint; just need projector and screen. Thanks,

Pat

For your interest. This will be provided to the Authority members tomorrow for the upcoming meeting. Let me know if I left anything out.
