Aloha, Ray. Our 3rd floor conference room is being used by another division from 1:30 to 2:30 p.m. so I reserved the conference room from 2:30 p.m. Assuming IPG will adjourn on time at 12:30 p.m., I think you will be rushed to eat lunch and walk over to the Honolulu Municipal Building by 1:30 p.m. Please let me know if still you want to keep the 1:30 p.m. meeting time and I'll look for another conference room.

Hi Toru,

We spoke to Clyde Shimizu and he will take us around on Wednesday morning (the 3rd). We would like to meet with you on Thursday afternoon (the 4th), approximately 1:30 to 2:30 pm, for an update on the project. I suspect that there may be a few items from this Friday's (the 28th) HQ's meeting agenda that will be worthy of further discussion as well.

Thank you arranging the tour.

Ray,

We'll arrange for a driver and an engineer to take your group around. But it would help if you can narrow down the areas of interests after viewing the alignment map. Viewing all alignment options could be tedious and confusing.

Subject: Tour of study area

Hi Toru,

I think it would be a good idea for Leslie and me to refresh our memories from 2001 and get a quick tour of the study area. Also, Donna has not been out there. Is it possible to have a tour, next week, with one of your staff and a member of the consulting team. It seems that we are available either Wednesday morning or Thursday afternoon.

Thanks,

Ray

Ray:

Below are some maps showing portions of the project, you might want to see. Toru says you and LR have seen the corridor. He can have you look at a specific area that is shown below. Some of the roads do not yet exist. We can discuss.
