Subject: FW: Sensible Traffic Document Request

Hi Joe -
I'm sorry - I should've forwarded this to you too.

Subject: Sensible Traffic Document Request

Region 9 requests your assistance in preparing our response due Thursday, April 1st in the Honolulu BRT case. Specifically, please review your paper and electronic files for documents responsive to the following:

"All documents circulated within FTA or exchanged by and between FTA and DTS relating to the construction of the Refined LPA in phases."

Please note there is no need to produce newspaper articles. All documents will be collected in the regional office for review. If you believe a document is a duplicate, please call or e-mail me to confirm that that is the case and you do not need to send it.

Please provide electronic or paper documents to me by close of business Tuesday, March 30th via fax (please do not forward documents via e-mail). However, please call or e-mail to confirm that I have received your documents.

Thank you for your cooperation and assistance.
