Ray:  
I don't see your name in the cclist so I am forwarding this to you.

We need to see the latest purpose and need (P&N) statement by Honolulu to see if the "managed lane" alternative would satisfy the stated P&N. If it would, then we need to know Honolulu's basis for screening out the "managed lane" alternative.

I don't see how there can have been a violation of NEPA when we have not yet published even a DEIS.

Dear Secretary Peters:

Attached is our letter of protest regarding what we believe are clear violations of the NEPA process by FTA in eliminating the Managed Lane Alternative from Honolulu's Major Transit Corridor Draft Environmental Impact Statement.
