Subject: Honolulu Consulting Parties

Hello Ray and Ted,

I highly recommend that after we receive the final paper work from ACHP executing the agreement, that you send an email to the consulting parties with a copy of the agreement letting them know that it is in effect. In that email, you should mention that you will be coordinating with NPS to obtain their signature and that the agreement would be available for them to concur with through the City. You can request that the City send out a subsequent email with specific instructions on how to get to their office to sign the agreement.

The sooner FTA gets a message out to them with the executed PA, the easier I think it will be for you to work with them on the terms of the agreement.

Best,

Liz
