[No. 387], Honolulu, Statement of Mission Lands Claims at Honolulu.

Premises occupied by Mr. Dimond, given by Kalaimoku to Reverend William Ellis of F. M. [Foreign Missions] Society, & by him to the Mission of A.B.C.F.M, at these islands. The original grant was much larger than the spot at present enclosed by Mr. Dimond.

2d. All the parcels of land enclosed by the mission in the district known as Kawaihao, which whole distinct was given by Kaahumanu, 1st to Mr. Bingham for the use of the mission & also any enclosed portions of said district, if there be any such, not in actual possession of the natives. The mission buildings & land upon said lands. Also a portion of ground enclosed & upon which stands an adobie school house, at present occupied by Mr. Wilcox.

In addition there is a land in Koolau called Kaluanui, given by Kaahumanu to Mr. Bingham. S.N. Castle, Edwin O. Hall, agents.

To the Board of Commissioners &c, Gentlemen:

In compliance with your public notice relative to claims of land &c I beg leave to state that I have no lease or written document of the Mission premises now occupied by myself in the Northwest part of Honolulu called Kaumakapili.

This station was commenced by myself soon after the general meeting of the American missionaries held in May 1837.

The land upon which the dwelling house, the station school house & meeting house are erected, was said to belong at that time to Konia, wife of Paki. Several of the chiefs then in authority, viz. Kinau, Kekuanaoa, Kona & Paki, after mature deliberation, informed me that they had set apart the yard in which the dwelling house is built, & the one where the station schoolhouse is erected, for a new missionary station & told me that I might commence operations at pleasure.

In the fall of 1838, the same persons set apart our meeting house yard as a place upon which to erect a house of worship to Almighty God. These 3 several yards are each enclosed with adobie walls, & their boundaries & dimensions are nearly as follows:

1st. Residence of the missionary measures about 46 yards & is bounded by a narrow lane. The mauka side is about 53 yards long, the northwest end is about 46 yards wide & the makai side is 60 yards long.

2d. The schoolhouse yard lies contiguous to the enclosure above described on the Southwest and is an oblong square, bounded on the Southeast side by the narrow lane & is 46 yard long and about 24 yards wide.

3d. The meetinghouse yard lies a few rods mauka of the mission dwelling house. The makai end is bounded by the public road & measures 48 yards, the northwest side is about 70 yards long & the mauka end is 40 yards wide, the southeast side is 61 yards long

[No. 387], Punahou [margin note illegible]

The undersigned claim in behalf of the mission of A.B.C.F.M. at the Sandwich Islands all that tract of land known as Punahou lot mauka & makai; to be used for the purposes for which it was granted.

That portion of said land which lies mauka of the Wai'un [?] road is said to be bounded nearly as follows: commencing by Allen's bridge which crosses the street near Allen's house & running inland to near the top of Ualakaa. Thence east into the valley near a certain rocky knoll [sic. knoll] pointed out by natives as the corner, thence toward the sea along a line running a short distance [illegible] east of that part of said land which is enclosed & extending to the road which runs from Honolulu to Waikiki just mauka of Allen's house, thence along said road to place of beginning.

The boundaries of that part which lies on the sea shore we cannot define so definitely, but presume there will be no difficulty in determining them as it is commonly known as pertaining to Punahou. This part embraces fishing grounds, coral flats & salt beds.

The above land was given by Boki to Mr. Bingham; then a number of the above named mission & the grant was afterwards confirmed by Kaahumanu. We have heard several persons mentioned as being acquainted with the facts & circumstances respecting this grant of land among whom are Reverend H. Bingham, Asa Thurston, William Richards, Levi Chamberlain, Governor Kekuanaoa, Laanui, John Ii, &c&c.

Signed, Daniel Dole, W.H. Rice.

I was told that Punahou extended from the road near to Allens, back to the top of Ualakaa, then the northern boundary was said to run from the top of Ualakaa eastward into the valley so far that the eastern line would include much of the rocky hill near the spring in passing down the road near Allens. There, there was a large flat on the sea shore embracing fishponds & salt beds & coral flats.

The above was written by Mr. Bingham from United States

[No. 387], Kaneohe, Land connected with the mission station at Kaneohe

About 4 acres are held by the mission enclosed by a fence; it has been occupied about 12 years. The station was taken by permission of the King & the land given by an agent of Liliha, widow of Boki, since deceased.

In addition to the above there is a taro land, known among the natives as an ili aina; not designated by any particular boundaries. This was given for the use of the mission by Liliha - widow of Boki.

[No. 387], Ewa, April 20, 1847

To the Commissioner, &c, Gentlemen:

I hereby make application for confirmation of title to a piece of land called Kionaole, a small ili in the ahupuaa of Waiawa, Ewa. I hereby enclosed a draft of said land, the measurement of which is as follows: Beginning at Northwest course & running south 74 fathoms, thence east 70 fathoms, thence north 20 fathoms, thence west 26 fathoms, thence north 44 fathoms & thence west 40 fathoms to the place of beginning. Said land comprises about 3 acres more or less.

Also a fish pond situated near the river joining southeast corner on a piece of waste land reckoned as belonging to Manana, an ahupuaa on the opposite side of the river. Said fish pond was dug out for me by my church members in 1838 & measures 27 fathoms by 14 (see draft).

I would also ask for a grant to the Protestant Church at Ewa for the use of their pastor, one of the moo paahao, of which there are two in Waiawa. As they have not been cultivated for more than 3 years & are now overgrown with bulrushes, there is no probability that both will be wanted again for the aupuni. Each moo contains 3 or 4 acres each. The members of the church wish one of them to cultivate, the avails of which are to be devoted to religious purposes.

Also, my house lot within the ili aina of Waiawa called Panaio, & three or four acres of land adjoining the Protestant Chapel for a church yard and burying ground, to be confirmed by title in the same manner as similar grants are confirmed.

For authority respecting the grant of my land marked out i the enclosed draft. I beg to refer you to Governor Kekuanaoa executor of Kinau, who gave me the said land in 1836 or early in 1837.
Signed, A. Bishop

No. 387, [American Board of Commissioners for Foreign Missions], [Oahu claims, continuation of claims from other islands]

Extract from a letter addressed to Mr. Castle dated February 17th, Waialua and Signed P.J. Gulick.

"P.S. I opened this to say a few words relative to the land connected with our premises. What it seems desirable to retain is a long narrow strip of probably 20 acres; bounded on the East by a road which crosses the river, or brook, Anahula, about 1/4 of a mile east of Mr. Emerson's residence, On the south by the brook Lanahula, On the west by the road which crosses said brook just opposite Mr. Emerson's house & On the north by a crooked stone wall built by Mr. Lock & Mr. Wilcox.

It has also been a stone wall on the east and a doby west, built by our Brethren. It is the better part of the land called Lokoea, but on the west & north it is said to fall considerably within the boundaries of Lokoea. With these data & the papers, I think you can make a more correct statement that I can; unless I get it surveyed. I don't know that I can do any better than I have now done.

Signed P.J. Gulick.

No. 387, [Missionary claim]

Unirrigated farm land at Waialua, Oahu. Conveyance of a portion of land for dry farming at Waialua.

Because of my thought of the importance of knowledge and education which will benefit the Kingdom of Hawaii; and because I also think Mr. Loke /Mr. Looke/ has a good school at Waialua and the students are preparing to be educated to end the idleness and deficiencies of this land, therefore I agree and explain that a portion of land at Waialua shall be transferred to said school without payment or tax. the diagram of this land is below, however, the north side is not exactly like the diagram. The ancient boundary will prevail on that side until the time when I understand the correctness of the new move. The steam is not conveyed with the land. It is, however, the boundary on this side. If the supplies of the school are taken on the stream this is not a wrong, however, the fish are protected.

Furthermore, there are given some divisions of water for this land, three days in one week on the north side of the stream, and on the south side, two days. On those two days the water shall flow to irrigate the crops.

Furthermore, John Ii, the School Superintendent of Oahu, shall administer that land and he is also the perpetual custodian of that land.

It /the land/ is conveyed absolutely to that school; it shall not be arbitrarily taken, nor shall it be disturbed unless the school is at fault or its haole teacher or his successor, perhaps. The land shall be administered so as to benefit the school. The land may not be given over to anyone else. It is given only for the benefit and to supply the needs of the school. Here is the diagram of the land:

/see diagram/ [No diagram in this text]

This diagram is not absolutely correct, as it was not surveyed with a transit. The beginning of the measurement is at the corner marked I, at a place close to the wooden road over the water/bridge or causeway?/

This word is recorded at Honolulu on the 14th day of September, 1841.

KEKUANA OA

Witness: Paalua, Limaikaika /Armstrong/

In accordance with Kekuanaoa's thought explained in this paper, giving me the administration of that kula farm land at Waialua, I agree that this land be conveyed to said school, and Locke or his successor, perhaps, the one who teaches at that school, to stimulate intellectual growth here in Hawaii.

Recorded at Honolulu this 14th day of September, 1841.
JOHN II, School Superintendent of Oahu

We two consent to all the words in this document.

Kilioe, sworn (from Kauikawaha's written Report to Claimant and translated by him for the Commissioner), I heard D. Kamalie, sworn, I heard the same things as Kilioe says - and I heard before, at a time when Hawailoa was our land as hoainas - my mother's brother named Wana, one of Laanui's family, came to us and said "Your land is given by the foreigner, Mr. Emerson by Kinau - so says Laanui.

Reverend I.S. Emerson, sworn, In about 1837 Kinau granted to me a certain part of the land now occuppied by Mr. Gulick to aid the Church. This grant included the Western end, containing probably 3 to 5 acres. It did not I think to include the spot of Mr. Gulick's house lot. that spot, as I understood Mr. Locke came into an unwritten contract between him & Laanui, by which Mr. L. [Locke] was to pay Laanui a certain sum per annum for the remainder of the land which Mr. Gulick now claims. This land has been in the possession & use of the Mission from about 1838 to this time.

Cl. 387, part 1, americal Sandwich Island Mission, Oahu, 23 March [1849], section 2 Punahou, Oahu, [illegible], William H. Rice, agent, present

[Margin note: Mr. Lee's notes]

John Ii, sworn for claimant, I am well acquainted with Punahou and its boundaries. It consists of two parts, one inland and the other a sea land.

It is bounded:

Mauka by the large land called Manoa
 Waialae by Mauna Pohaku
 Makai by kula land of Allen, Kapeau, myself & others.

I think it extends nearly down to the road leading from Honolulu past Allen's place, Honolulu side by the road leading from the old Allen place to Manoa and by my land.

The makai part of Punahou is bounded:

Mauka by Kewalo and Koula
 Waititi side by Kalia
 Seaward it extends out to where the surf breaks
 Honolulu side by Honoliili.

This land was given to Mr. Bingham for the Sandwich Island Mission by Governor Boki in 1829. It was given upon the same terms as all their other lands were given to them; and the Grant was confirmed, so far as silence proved it, for in truth she [he?] had no right to set aside this grant.

From that time to this, the Sandwich Island Mission have been the only possessors and konohikis of the land. I was a witness to the gift. The title of the Mission is perfectly clear.

The name of the makai part is Kukulaaeo. There are several tenants on the land of Punahou whose rights should be respected.

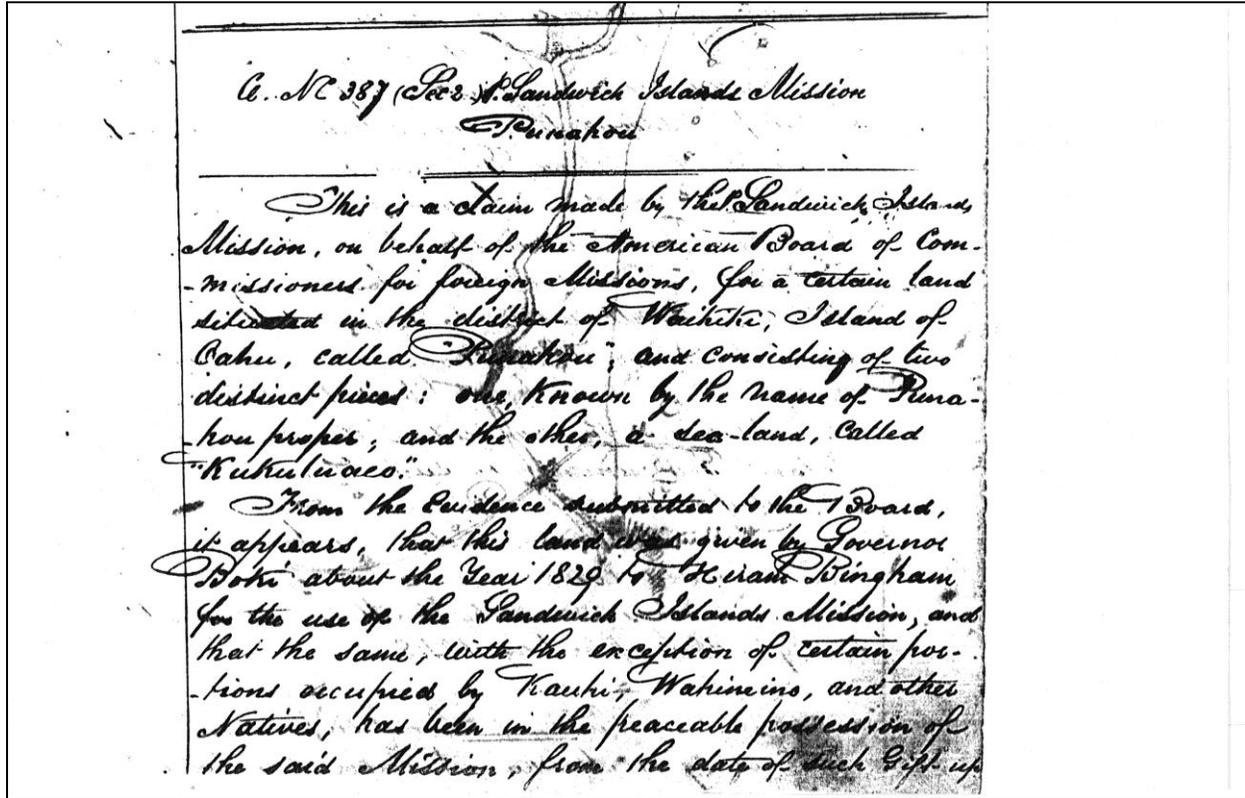

Z. Kaauwai, sworn, I know this land. I heard Boki say to Hoapili Kane concerning the gift of this land to Sandwich Island Mission that he had given it to Mr. Bingham.

Boki's wife made some objections to giving it to Mr. Bingham, claiming it was hers as received from her father, Hoapili Kane but Hoapili Kane confirmed the gift and it was adjudged to be right & proper.

From what I heard at the time of the boundaries, I should think Mr. Metcalf's survey correct.

LCA No. 387 to A. B. C. F. M, Award

to the present time.

We consider the Title of the "American Board of Commissioners for Foreign Missions" to "Punahou proper", and to the "Sea land 'Kukuiuaeo", to be the same in its nature as that set forth in the Award of February 1st 1829 of the Lot now occupied by Henry Diamond, and designated as Claim "N^o 384 - part of Honolulu Claims".

We do therefore award to the "American Board of Commissioners for Foreign Missions" the aforesaid lands of "Punahou proper" and "Kukuiuaeo", with the exception of those portions occupied by Natives; - to have and to hold to them, and to their Successors, during the existence of the "Sandwich Island Mission"; - that is to say - so long as the "Sandwich Islands Mission" shall continue to exist, and labor to promote the Christian faith they profess. But if they should cease to exist, or to pursue the object of their profession, these lands will then revert to the Sandwich Islands Government.

The above Award, however, is made upon the express understanding, that if the "American Board of Commissioners for Foreign Missions" shall desire to cease, ~~sell~~, or otherwise dispose of these lands, or any portion thereof, they shall be at liberty to do so, by first obtaining the consent of the Sandwich Island Government, to such lease, sale, or other disposition.

The correct notes and bounds of the above awarded lands, are contained in the following surveys, made by S. Metcalf on the 6th and 9th days of May 1828.

Claims 677 to 683, M. Kuanaoa, January 18, 1848

No. 677, For Kamamalu,
Kekuaniu, sworn, This place is in Honolulu. I have lived on it from Kahumanu's time.

Waititi side it is bounded by vacant land
Makai by salt ponds
Ewa side by Kuapio's
Mauka by water Street.

It has a fence which is the true boundary. Two families also live on it.

Kanohailua, sworn, The above statement I know to be true. It belongs to claimant for Kamamalu. I have lived on this place from Kaahumanu Is time. Two claimants of houses live there beside under claimant. There is no counter claimant.

No. 679, For Kamamalu,
Wahine alii sworn, I have lived on this place for 17 years. It is in Honolulu, bounded:

Waititi side by Naau's
Mauka by Water Street
Ewa by Kealoha's
Makai by Kinimaka's.

It is fenced and has several houses on it. The people all living under Victoria to whom the land belongs. There are no other claimants to it. I have a house claim. It descended from Kaahumanu through the Chiefs to claimant.

No. 680. For Kekuaanoa, House lot in, Malahine said, Honolulu. Malahine, sworn, This place is bounded:

Waititi side by Kuapanio's yard
Mauka by Hotel Street
Ewa by Nuuanu St.
Makai by Joseph Booth's.

It is fenced & has one house on it. I have lived on it from 1838. It belongs to Kekuaanoa under whom I live. No one else has any title to it. It was partly waste, and partly bought from Paki.

No. 681. In Honolulu near Janions.
Paulo Kanoa, sworn, This place is bounded on:

Waititi side by Lalau Street
Mauka by Merchant St.
Ewa by Keaumoku's
And Makai by the sea.

It is called Nihoa, and belonged to Kaahumanu from 1823. She lived on it. It came from her by title to Kinau in about 1832. In 1834 when Kinau died, it came to Kamamalu. It was formerly fenced with sticks or mud wall and covered with houses and people living under Kaahumanu. In about 1843 the houses were all taken off and the people scattered on account of the English Consul taking possession by order of Lord Paulet. I never knew of the transfer of this land to another, nor whether the people banished ever were remunerated. I believe this place was Kaahumanu's. Whenever Charlton's claim shall cease, it will return to Kamamalu Victoria.

Wahine alii, sworn, I know this place and that it came to Kaahumanu in 1822 or 3. It was a gift from Boki to her at that time. It was fenced and had four large houses such as Chiefs occupy and innumerable small ones, which were all built by her. Only two were there at the time of the Gift which were after burnt down.

Kanoa has correct described the boundaries. The place formerly belonged to Kaahumanu from her it came to Kinau, and has descended to Kamamalu through the regulation of the Chiefs. I know the face of the houses being torn down by Charlton in 1843, and that he then claimed the place, but never before heard that that it had ever been transferred. I have lived in Honolulu 45 years. When Charlton's rights expire I suppose it will return to Kamamalu.

No. 682, For Kamamalu, In Honolulu, called Maunaala.

Paakahi, sworn, I know this place is bounded on:

Ewa side by the Nuuanu Road

Mauka by Captain Nyes place

Waititi side by the stream

Makai by the King's land.

It is fenced with stone. I have lived on it under claimant 5 years and know no counter claim.

Kekualoa, sworn, I have given up my right to certain kalo patches to claimant and have no claim within this place. Kekuanaoa got this land from Kinau in 1832, the boundaries are rightly given, and there is no other claim.

No. 683, For Kamamalu, near Punahou,

Namauu, sworn, It is on the plain Kahua. It has a fence which is its true boundary. The place is called Kaiihee and is arable. I know it came to the Governor in 1836 as heir of Kinopu. He intends to give it to Victoria. He has held it ever since and there is no other claimant.

N.T. 485-486v2

No. 677, Kekuanaoa, January 22, 1848

Kekuanui, sworn by the word of God and stated, "I have seen this property; it is in Honolulu her and I am living there. I have lived there 15 or probably 16 years.

Mauka street is toward the mountain

A river flowing toward the sea, Waikiki
Kuhaupio's place, Ewa

And this place has been enclosed. This enclosure indicates very clearly Kekuanaoa's property. This land had been from Kaahumanu I and in the year 1846. It was surrounded by a fence. Kahakai and a foreigner's interest are in there."

Kamohaikea wahine, sworn by the Word of God and stated, "I have seen this place which is in Honolulu here named Hanuakaha. It has been enclosed and that is its most established boundary. This is for Kekuanaoa (but) under Victoria. I have lived there since Kaahumanu 1st's time. Two houses are there and we (two) are living under Kekuanaoa and I have not know any other interest there."

Know all men of my claim for my house lot.

To the Honorable Land Commissioners of the Hawaiian Islands, Greetings: I hereby state my claim for my house lot, as in the law. This place is at Apua, Honolulu, Island of Oahu. Its boundaries are as follows: On the north, the house lot of Maele; on the east, the house lot of Kinimaka, and the pond of Aikahi; on the south, Kakaoko /Kakaako?/; on the west, the sea of Apua. Kalola gave me this place to my wahine, whose name is Keano, and she gave it to me. I am, respectfully, your servant,

claim 704, Honaunau, February 7 [1848]

John Ii, sworn, This place is in Honolulu & bounded:

On Waititi side by Kaloa's land and fish pond
Ewa by a side belonging to Loa Kamehameha, and a stream (Kaawai) between
Makai by the sea and
Mauka by the same stream as Ewa.

It has 3 houses and is enclosed by the stream on two sides and a fence.

In 1837 claimant and Kawana were living on it. Kawana left it in 1839 and claimant and his people have been living there ever since. I never heard of his right being disputed.

(Honaunau admitted Kawana has a house lot right in the place, which he, claimed after stopping there to do work for claimant at his request).

Kaauwai, sworn, I know the testimony of Mr. Ii is correct as to the bounds. The place belonged to the mother of claimant's wife at the time of building the fort and it came to Honaunau's wife and guardians when she died. Kawana was one of the guardians, the others are dead. Claimant gets his wife in this way[?]. I know of no other claimant.

There are 3 houses in this place and the fence of this place is built of *nini soil. I had seen Honaunau and Kawana living there and their aides are living there now. No one has objected to him and Kawana has property interest there at this time."

Kaauwai, sworn by the Word of God and stated, "I have seen this place which is very much the same way as John Ii has related here; perhaps I have slightly more knowledge (about it) . Honaunau's parents and his wife had received this property here at the fort and they have lived there since then to the present time. No one else has had any claim to this time. It has been rumored his wife had be-quested the place to him. I have not known anyone has objected."

N.R. 389-391v2

Greetings to the Land Commissioners: We testify as to the claim to our house lot in Honolulu. The survey has been completed and its boundaries are shown on the diagram which accompanies this. This is an old interest, from the time of Kamehameha I. We sailed from Hawaii. My kahu was living here in the Russian /place/ and I also lived at this place.

When the retainers of Pauahi came, it was I, Kekuhaupio, who received them, to live here under me and my kahu. Liholiho's retainers, also, were my guests. I went with Liholiho ma when they went and my people stayed at this place and the houses which we occupy are mine. When Kinau was living I went and lived at my makuahine's place. I did not think of relinquishing this place, I left my people here, and also my houses stood here.

When my kahu died he left this place to me.

I lived peacefully at this place, formerly. But I hear that Konia is thinking of taking this place for herself. Most of the people living here at this time are new, and they are the guests of my people. I have not disturbed them, however they live under the one who has the right.

I hereby convey to Kaukaliu the care of my interest. This is our letter of testimony to you, the Land Commissioners.

I, Kaukaliu, am the one whose husband, now deceased, made the fence and also dug the well.

N.R. 395-396v2

A Land Claim, 1847, 30 S/ept/: Hear ye, O Land Commissioners: This is an explanation to you of the basis of interest in the land and the lot. The interest was from Kamehameha I, through Kamehameha II, until Kamehameha III.

It was inherited land for Amamalua and for me, his keiki, Kaahumanu. Akopuluia was under Koahou, and on his death it was bequeathed to Kekauonohi, not to me, the heir. I remained, and this landlord of mine withheld mine and returned his, at Hilo.

Therefore, I am independent in the claim for these six lands. Their names are:
 Okanikiki at Puna
 Honokohau and Kukio at Kona
 Waianae at Lahaina
 Waimalu at Oahu.

The sixth is the lot at Honuakaha on Oahu. I urge that this claim be awarded.
 KAAHUMANU, Subject of the Mo`i.

Here are the names of the witnesses for the inherited land: First, Okauhola at Hilo, Second, Walawala, Third, Namaka. Finished.

F.T. 213v2
 [No. 735], Kaahumanu, July 25

Kamaka, sworn, I know this place. It is a house lot in Honolulu, called Honuaakaha. Claimant got it from Keeaumoku before Rihoriho's death (1824). Keeaumoku possessed it a long time before claimant lived on it in peace from that time to this. It is partly fenced and has two houses on it belonging to claimant.

It is bounded on the:
 Ewa side by Kuhopi's lot
 Mauka by Kahiwa's
 Waititi by Kekuanui's & Kalolo's
 Makai by waste land

I know of no counter claim.

John Ii, sworn, I know the land and claimant's title to it, and is as has been stated by Kamaka. I know of no counter claimant.

Claimant relinquished his [her?] claim to the other pieces named in his statement to the Board. They are old lands, long ago lost.

N.T. 538v2

No. 735, Kaahumanu, February 25

Kamaka, sworn by the Bible and stated, "I have seen Kaahuman's property; it is at Honuokaha in Honolulu here. She had received it from Keeumoku and Kaahuman is presently living there. It has been enclosed with two houses within it and

the boundaries are:

Kekuhaupio's lot, Ewa

Kaihiwa's lot, toward the mountain

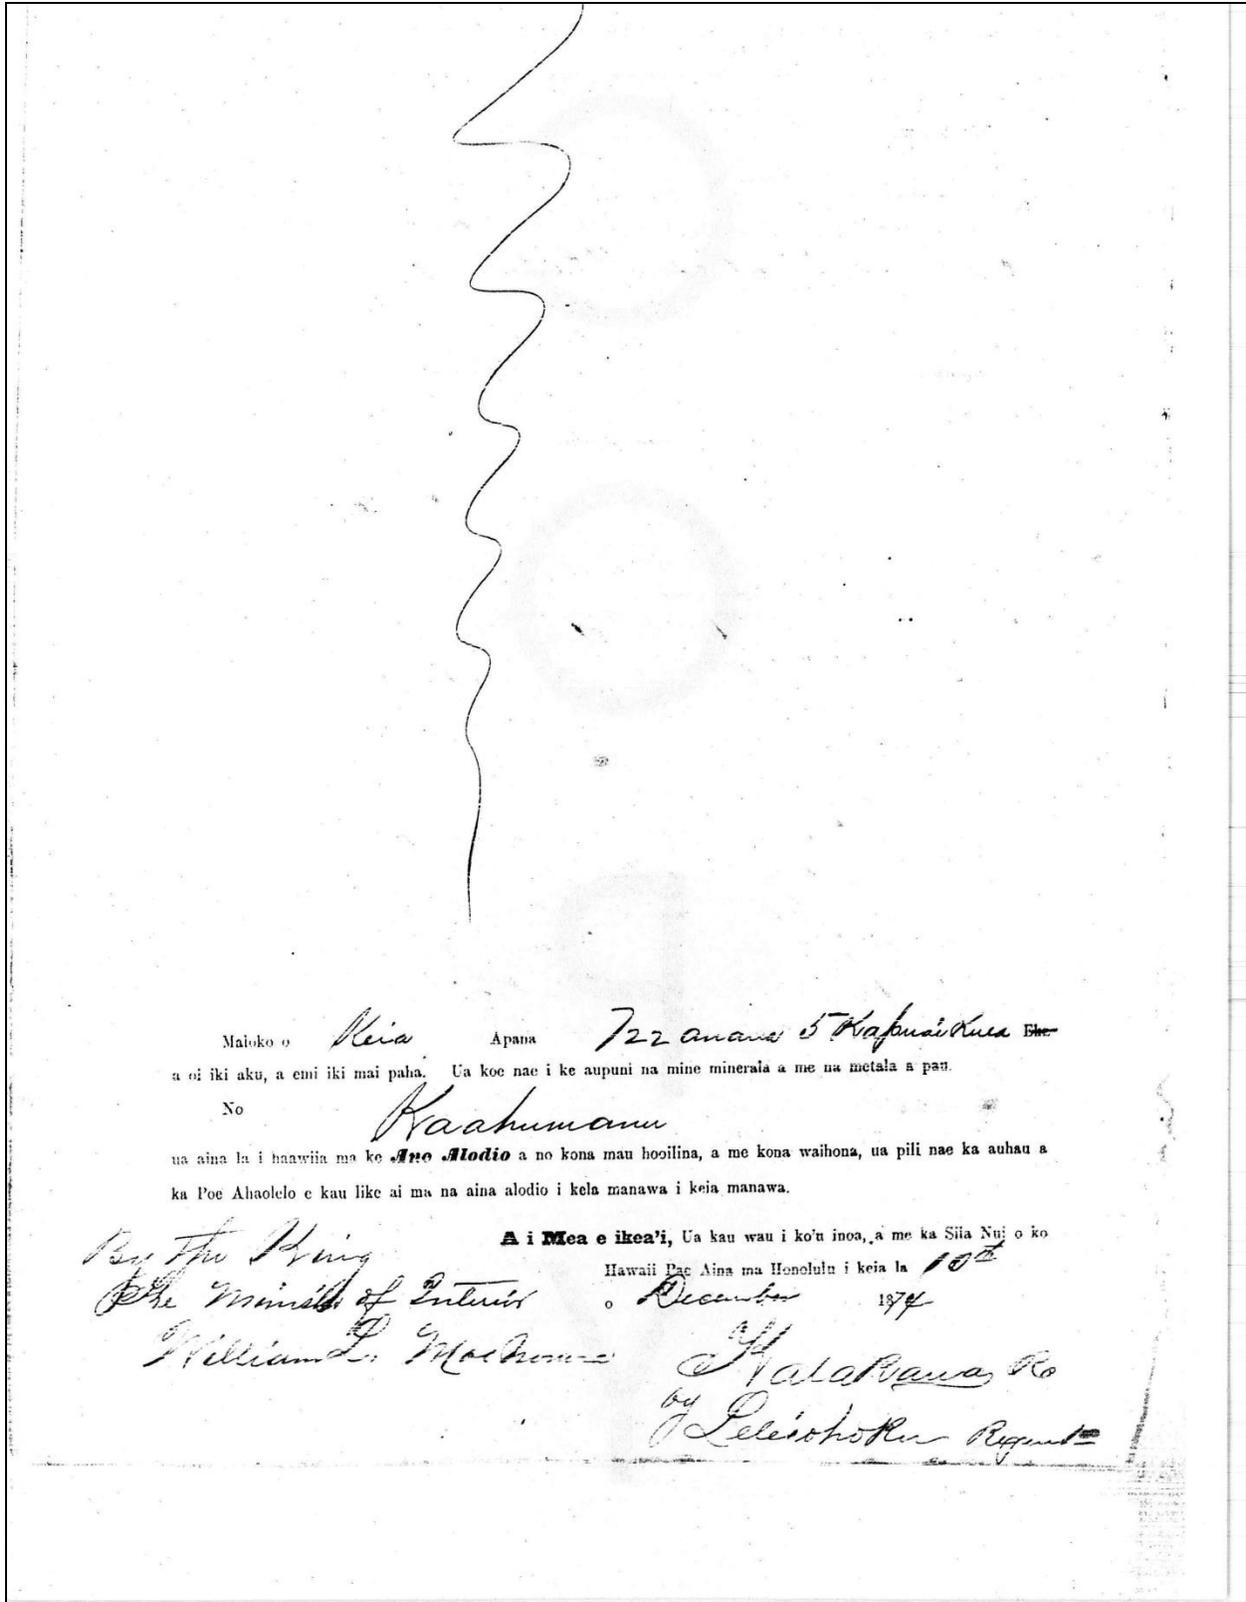

Kekuanui's lot and Kalolo's lot, Waikiki and

an idle pasture, toward the sea.

No one has objected to him [her?] to this day.

John Ii, sworn by the Bible and stated, "I have seen Kaahumanu's lot. Everything is just as Kamaka has related here."

Greetings to the Honorable Mr. Lee and the Land Commissioners of the Hawaiian Islands: I, Kukao, hereby tell you of my house lot claim which is from very ancient times. This right goes from the time of Peleioholani, with no one crowding us; my makuas lived here until this -era of Kamehameha III. Measurements have been made of the length, and the width. The length is 160 and the width is 66. The length of the two long sides and the width of the two short sides are combined.

Farewell to you, Mr. Lee and the Land Commissioners.

Kahawaii, sworn, This place is in Honolulu, a house lot, called Kukuao, bounded:

Mauka by Kekuanaoa's waste land within his large wall, which entirely encloses it.

It is fenced and has four houses, 2 belong to claimant, 1 to Witness and 1 to Koke, who live under claimant, who inherited it from Milo, his father who a long time ago possessed in the time of his ancestors. He died in 1846. There has never been any counter claim to it from anyone.

Auhili, sworn, and confirmed the previous testimony and knew of no counter claim.

N.T. 42-43v3

Kahawaii, sworn and stated, "I have seen Kukao's house lot at Kukulao in Honolulu here. The boundary of this property is the fence which surrounds his place. No one has objected to this place. Kukao's interest had been from Milo, his father, who had died in 1846 and who had lived there since Kamehameha I. We are now living under Kukao and no one has ever objected."

Hauhili, sworn and stated, "My knowledge on everything about Kukao's property is exactly as Kahawaii has just stated here."

The Honorable Land Commissioners, Greetings: I hereby state my claim at Kakaoko in Honolulu, a house site, which was from my wahine. The kupunakane of my wahine got this place in the time of Kamehameha I, and on his death it was left to his kaikamahine, being the makuahine of my wahine, and at this time she gave this place to my wahine. Therefore I state to you that from ancient times no one has objected to this place and we are living here at this time. There is one house there, which is ours. Its boundaries and dimensions are shown on the diagram which is sent herewith. Farewell to you all.

Laamaikahiki, sworn, I have seen this claim in Kakaoko, Honolulu,- a house lot for which he has asked Liliha, she is his mother-in-law.

Mauka, A river

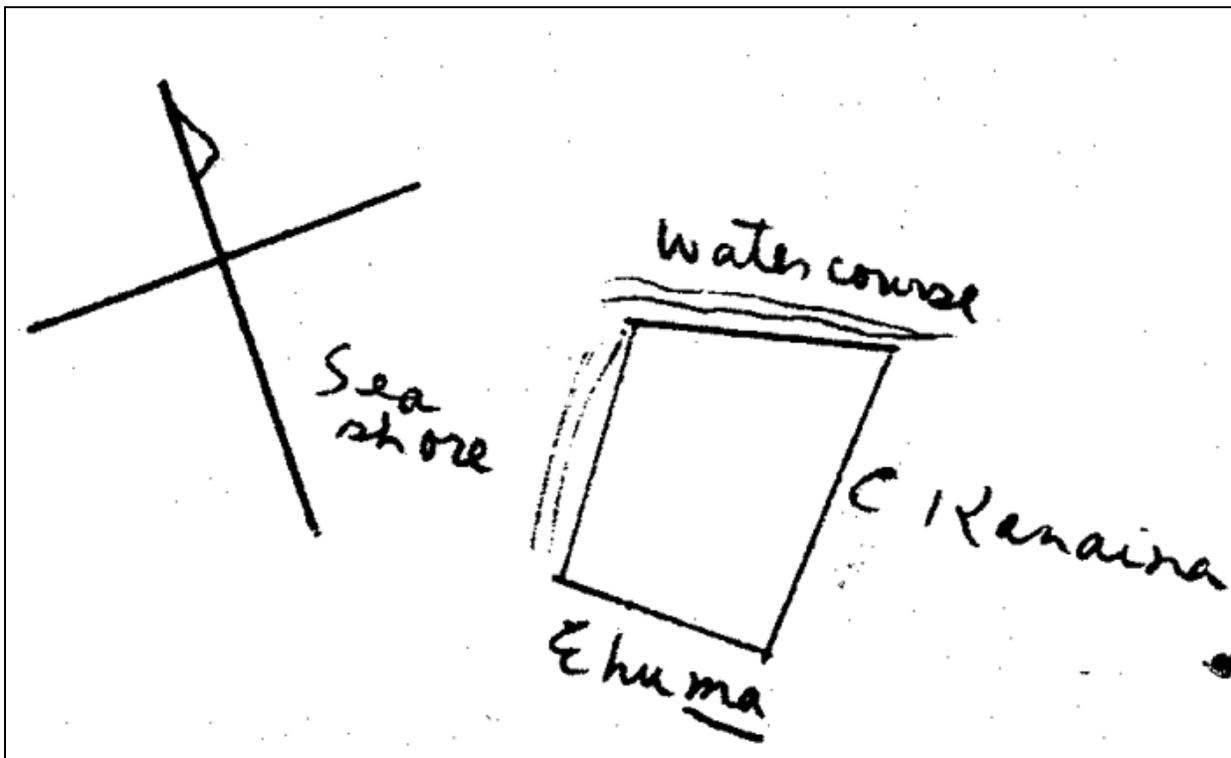

Waikiki, Kanaina's house

Makai, the konohiki
Ewa, the ocean.

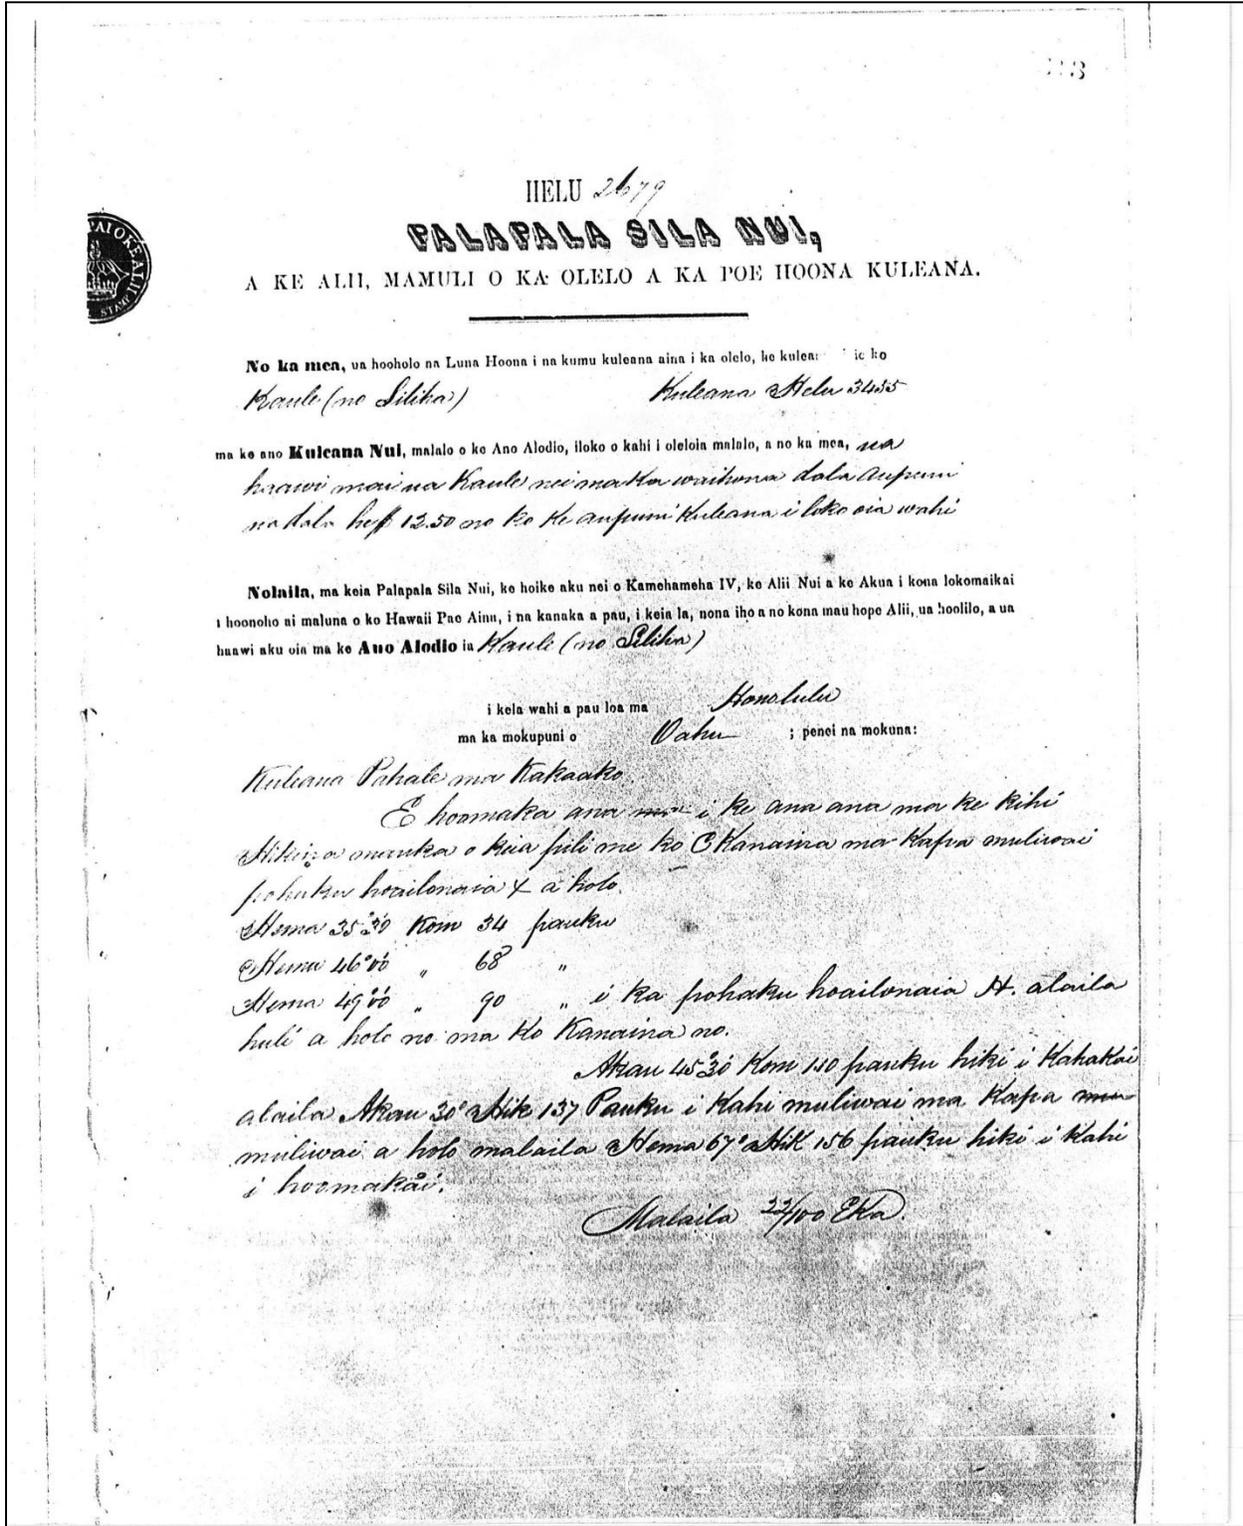

Liliha had received this land from Koakanu and his (Koakanu) parents had received it long ago during the time of Kamehameha I. They have died and his daughter, Liliha is now living there. No objections.

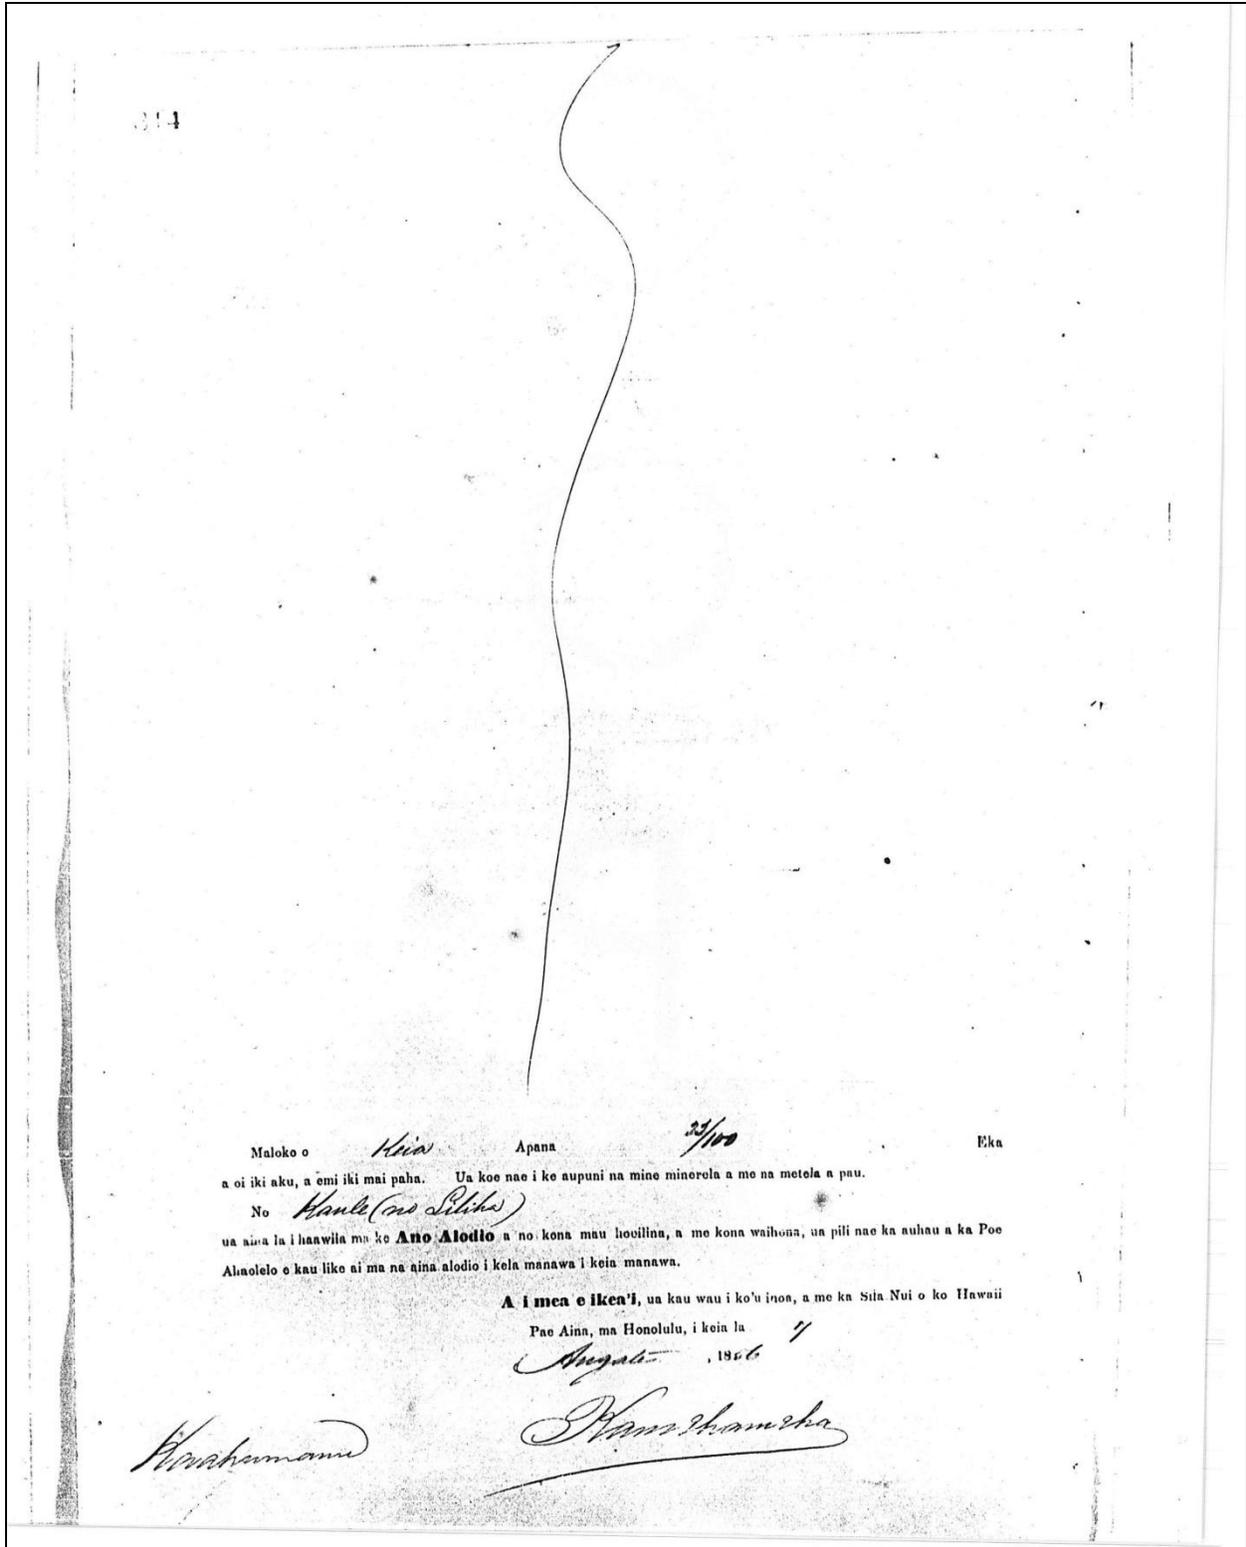

Keawe, sworn, I have seen Liliha's claim in Kakaako just as Laamaikahiki has related here. It is indeed true.

Kaina, sworn say, he knows the kuleana of claimant in Honolulu. It consists of a house site and four fish ponds. The house site is not enclosed. The four fish ponds are in 3 distinct pieces.

Claimant derived this kuleana from Kamehameha I, and has held and occupied the same up to the present time. I know of no dispute to claimant's title.

No. 10463, Napela, Honolulu, February 14, 1848

N.R. 557v4

Greetings to the Land Commilssioners: I hereby state my claim for a salt land at Kukuluaeo on Honolulu, but I do not know its size - that is up to you, the persons who know of the big and the small. I believe I have a right which I hereby state to you.

NAPELA

N.T. 445v10

No. 10463, Napela, 25 December 1854

Mahoe, sworn, I have seen this claim of Napela in Kukuluaeo in Honolulu, Oahu, of 2 ponds, a ditch, 2 deposits (water?), a house site and a salt land section in two pieces.

Section 1 - 2 ponds and ditch, 2 deposits and house site.

Mauka and all around by konohiki land.

Section 2 - Salt land.

Mauka by Kahelelua's land

Waikiki by road

Makai by Kaula's land

Ewa by Kanoniulaole's land.

Napela's land from Kauhi at the time Kinau was yet alive. No one has objected to him nor to his heirs.

(Postponed until P. Naone, the overseer konohiki is available.)

Greetings to you, Nailiili,

I have seen your correspondence relating to the claim of Pehu in the name of Napela. I have noted that you mentioned two deposits of fry - therefore Kalaka and I have agreed for only the two ponds, one house site and one salt land. If this should meet with your approval, then it shall be certified.
