- Website and social media posts of City Center Traffic Update on 9/7 for the week of September 9 – 15 to www.HonoluluTransit.org.

City Center AIS Field Work Traffic Update | Week of Sept. 9, 2012

The Honolulu Authority for Rapid Transportation (HART) wants to inform drivers that archaeological survey work continues next week in the urban Honolulu area for the rail transit project.

Motorists are advised of lane closures related to the survey work being conducted in the Kaka'ako area. Work will require lane closures during non-peak traffic hours.

For the safety of both the work crews and motorists, the public is advised to proceed with caution through these areas. Drivers should anticipate possible traffic delays or use alternate routes during work hours, and provide a safe distance between themselves and the construction workers and equipment.

Work for the week of Sunday, September 9, through Saturday, September 15, will take place at the following locations between the hours of 8:30 a.m. and 3 p.m.:

- Halekauwila Street between Cooke Street and Koula Street
- Queen Street between Kamakee Street and Waimanu Street
- Pensacola Street between Kona Street and Waimanu Street

The City is conducting the archaeological survey work along the urban Honolulu section of the Honolulu rail transit route to identify potential archaeological, historical and cultural resources. The archaeological work will aid rail project staff in their design of the elevated rail guideway.

Contractors Cultural Surveys Hawaii Inc. and Royal Contracting Co. are conducting the fieldwork.

The survey work will be completed before rail construction begins in the urban Honolulu area, as specified under the rail project's programmatic agreement relating to cultural and historic resources.

- Media Advisory Traffic Update distributed to local media on 9/7 for the week of September 9 – 15.

Note: Traffic announcement weeks start on Sunday and end on Saturday.
