NOTICE OF APPLICATION AND PUBLIC HEARING

This is to inform you that we are reviewing an application for a Special Management Area Use Permit (SMP) to construct portions of the Honolulu Rail Transit Project (H RTP), including a storm water outfall drain line and culvert for the maintenance and storage facility. About 1.3 miles of the H RTP total guideway length of 20 miles, including the makai portion of the Pearlridge Station, lie within the Special Management Area (SMA) and require an SMP. The outfall for the drain line of the maintenance and storage facility is in the 40-foot shoreline setback area and requires a Shoreline Setback Variance. See the enclosed map.

NOTE: Although an SMP, No. 2010/SMA-57, and a Shoreline Setback Variance, No. 2011/SV-7, were previously granted for the H RTP, new permits are being re-processed pursuant to the August 24, 2012 State Supreme Court ruling in Kaleikini v. Yoshioka (No. SCAP-11-0000611).
