HONOLULU AUTHORITY for RAPID TRANSPORTATION  
HART WEEKLY eBLAST | MAY 22, 2015

---

## RAIL CAR PRODUCTION IN FULL SWING

HART's first rail car shell is in full production at an Ansaldo Breda manufacturing facility in Reggio Calabria, Italy.

This photo, taken earlier this week, shows the Honolulu rail vehicle in its final stage of the assembly process where all the dimensions are being checked and verified just prior to the car being painted and having its floor installed.

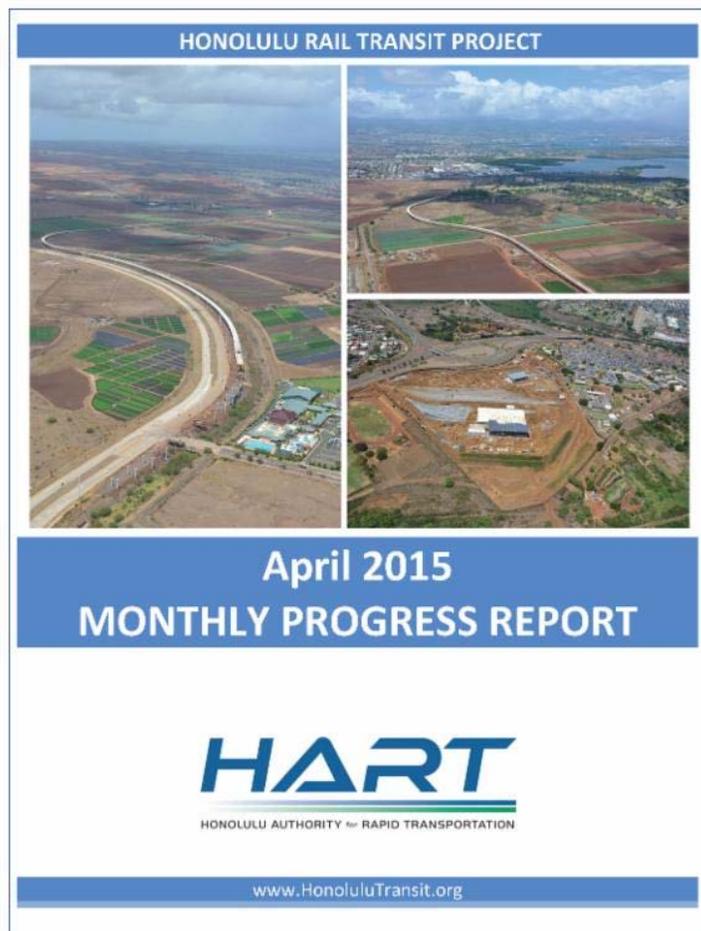

Once that process is complete the car shell will be shipped to Pittsburg, California for final

assembly and initial testing.

And in the early part of next year, the first car will be delivered to the Rail Operations Center in Waipahu for further testing before it is put into service in 2018

---

## APRIL MONTHLY REPORT AVAILABLE

HART's monthly report for April is now available on the rail project website.

The report was presented yesterday to the HART Board of Directors at its regularly scheduled meeting.

The monthly report contains a lot of information and is a great tool for tracking the rail project's progress and finances.

You can view the April report [here](#).
