Subject: Honolulu Rail Project

Hi Liz -

We are still responding to Pua's comments on the accuracy of the APE maps. I have instructed our consultant to address Pua's comments as best as we can with tomorrow as our deadline. Our goal is to get the maps uploaded tomorrow and send the ftp site to all those on the email list. We intend to send a CD of your Friday email and the attachments on the ftp site to the consulting parties for which we only have mailing addresses.

We would like to discuss the APE maps with you tomorrow. The current APE map files are difficult to change. We can make them easier to use but will not be able to do this by tomorrow. There is a lot of extraneous information on these maps. We would like to get your input as to if we should leave this information on the maps or clean them up prior to the execution copy.

Would you be available for a call with us tomorrow at 8:30 a.m. (Hawaii time)? I have a meeting at 9:30 a.m., but should be free after 11:00 a.m.(Hawaii time). Please let me know if we can talk. Thanks.
