There is so much going on this afternoon and many people have conflicts. I am going to postpone this meeting until next week.

Liz

The purpose of the call is to discuss the precast yard and other items on the Honolulu transit project.

For your convenience, I have placed comments received on the FEIS, the latest draft of the Honolulu PA (revised yesterday by the City), information on the casting yard, and Section 7 letters for USFWS on the shared drive under the folder Honolulu.
