```

Thank you, Pearl. How often is the EIS database on EPA's public website updated? Would it be updated today?

Hi Elizabeth,

The report for 8/13/2010 has already been sent to Federal Register. Your extend will appear in the FR 8/20/2010.

|RE: FEIS Name Correction and Extension of Comment Period
|

>-----|

Hello Pearl,

FTA would like to extend the comment period on the Honolulu High-Capacity Transit Corridor Project for an additional ten days. The FEIS number is 20100230. The DEIS number is 20080469.

This would be the second comment period extension on the FEIS. The comment period will end on Monday, August 16. We would now like the comment period to end on Thursday, August 26.

If possible, we would like the extension of the comment period to be posted on EPA's website/database as soon as possible. Also, if possible, we would like the extension of the comment period appear in the Federal Register notice this Friday, August 13th.

I am going to call shortly to follow up on this email.

Thank you

Liz

To clarify, we only need to change the FEIS project name.

Subject: FEIS Name Correction and Extension of Comment Period

Good afternoon, Pearl,

Thank you for your assistance with making corrections to the Honolulu High Capacity Transit FEIS. The FEIS number is 20100230. The DEIS number is 20080469.

Please change the project name to:

Honolulu High-Capacity Transit Corridor Project, Provide High-Capacity Transit Service on O'ahu from University of Hawai'i-West O'ahu to the

Ala Moana Center.

We would also like to extend the FEIS comment period by 20 days. The initial comment period was scheduled to end on July 26, 2010. By adding 20 days, I believe the comment period will now end on August 15, 2010.

I will follow up this email with a hard copy letter requesting these changes. Thank you for including this information in the Federal Register publication for this Friday.

Please contact me if you have any questions.

Liz
