Hello Faith,

I took some time to work on the PA language and the response to the SHPD comments of concern before forwarding to our attorneys. In the interest of time, I would like for you to review my revisions at the same time that other folks may be reviewing and commenting.

In speaking with the SHPO over the last few months and reviewing her comments on the PA, I heard her say that she did not want an individual in the office to oversee. So I revised that section of the PA to get at more of what I heard her describing. For the most part, I would have an independent reviewer looking at work products during the same review period as the consulting parties unless it is a work product of special concern identified or requested by the City. Take a look. We can still provide modifications.

Also, I edited the post-review burial discovery language to make it active voice and tweaked some of the language there to respond to comments the SHPO had shared previously on responsibility for finding reinternment locations. We can set up a teleconference to discuss on Monday.

Liz
