I'm a little nervous about referring any issue to Region 9, Liz. If the City would simply follow the requirements of § 1505.2 of the implementing regulations and include mitigation to which the City will make (must make?) a commitment, would more be required? Point them in the direction of Region 9, if you want, but try to bracket the issue. Thanks.
Carl

Can I direct them to Region 9 for assistance on the ROD?

Hi Liz –

After we spoke today, a question came up regarding Appendix A. I will try to call you tomorrow morning; if I don't get you, Ted Matley will be calling you. Thanks.

Also, is it the City's responsibility to draft the Record of Decision? If it is, can you send me a copy of a "good" one? Or guidance on what the ROD should include?
