Attached is the version of the Maurai letter that is the final version of the letter. Please note that there is a typo that I did not correct in the very last sentence.

Please see request to revise the ING letter. I think the content is generally alright, the noise discussion just is out of order and confusing. Instead say that there are moderate impacts at certain locations. However, because of mitigation with the walls along the guideway, there would be no noise impacts per FTA guidance.

I think this covers all the letters except for Honolulu Traffic and Stop Rail Now. Renee is reviewing those letters. Please contact her if you have questions.

I am attending a meeting at EPA this afternoon. Please contact Carl Bausch if you have questions on the document or status. He leaves the office around 4 pm EST. I will be back in the office around 5:30 pm.

Thank you,

Liz
