Ray,  
I added yellow hi-light in the attached comments that FTA sent to the City in order to call-out where we received direction on noise analysis and on the construction noise mitigation protocol. Hopefully this will help in your "checking in to the issue".

Faith, further FEIS comments. As with those comments presented last week, they are not final comments. Further FTA review of your responses will be necessary and general review of other areas of the FEIS (including legal sufficiency) will continue.

Ted
