I'll come by soon to talk about Honolulu. I have about 60 more emails to go through. (I've never seen anyone use the do not disturb status)

I think it's scheduled for Thursday at the usual time. Right now the big push is Honolulu so who knows what we can accomplish by then...I'm totally Debbie Downer today ;-)

Thanks Megan, I'm going to try and catch up on this over the next few days. Sorry, I'm still out of touch now. Did we schedule the next call??

Subject: Expert Panel Opinions

Hey AQ,

I hope your trip to Pittsburg was great!

I reviewed the Expert Panel's opinions on our proposed CEs, and placed the hard copies with my highlighting on your desk. I highlighted what I thought were important points, and thought I would just pass my set on to you since they are about 30 pages each. But if you would prefer to print your own copies, that's cool, too, and you can return my set to me. Once you've had time to review the comments we can get together to discuss our next steps. Basically, Linda brought up the cumulative effect of the CEs, Harold brought up limiting/clarifying some of the language/terms, Rhey brought up limiting/clarifying the CEs, and all three recommended including supporting data/documentation/pictures. So, we have our work cut out for us.

Thanks, and welcome back J

Megan
