The first revised sentence says "your project amply qualifies". I would suggest saying "the project amply qualifies" since the Senator's office is not the project sponsor.  
In the second revised sentence in yellow – replace they with "the City". Using they makes it sound as if FAA offered a minor adjustment.  
In the third revised sentence in yellow – it should say "a Final Environmental Impact Statement" not just "A statement"

**Subject:** Letter to Senator Inouye - Pls review attached

OST/S10 wants to send this letter to the Secretary right away. They made some recent editorial changes to FTA's draft. I am attaching both. Please compare the recent one with the highlights with the FTA draft and add any clarifications that might have been edited out.

Appreciate your assistance as quickly as possible.
