The Administrator does not want to commit to a final impact statement completion date for the record.

Paul -- Susan, Carl or Jim Ryan would be the best folks to answer that question. I think we are shooting for having the FEIS published in late May, but don't know whether we want to say that to a reporter or not. Please wait for their response.

Beth,

Any info on this?

Thanks.

No problem. Can you provide any update on when the FEIS for the Honolulu project will be released or whether a supplemental EIS will be needed?

Quick question:

If we wanted to schedule an editorial board to discuss major transit issues:

- a) Who would be the best person to contact (name, phone, email)?

- b) Who besides yourself and this person might attend?

Thanks.
