Hello Ray –

This morning I received a draft Environmental Assessment for the Central Mesa LRT Extension Project and the Administrative Draft EIR/EIS for the Hercules Intermodal Transit Center. Also I recently received on the Monterey County administrative draft Environmental Assessment, the Wilshire administrative draft BRT EA, and the LA Westside Subway Extension EIS. Katie and Andrea have both offered to help me take a look at a few key environmental sections of these documents until the Honolulu Project dies down. We will not be able to take a look at these documents in their entirety. Would you mind filling out the table below to help us prioritize the review?

Thank you,

Liz

Order of Priority	NEPA Document	Key Sections for Review	Review needed by
	Central Mesa LRT Extension Project EA		
	Administrative Draft EIR/EIS for the Hercules Intermodal Transit Center		
	Monterey County Commuter Rail EA		
	Wilshire BRT EA		
	LA Westside Subway Extension EIS		
1	Honolulu High Capacity Transit
